An amendment that includes tar sands as a possible source from which to produce synthetic fuel or chemical feedstocks;

An amendment that includes tar sands and heavy oils within the definitions of "synthetic fuels" and "synthetic chemical feedstocks";

An amendment that sought to strike language authorizing the President to organize corporations to produce synthetic fuels and chemical feedstocks;

An amendment that sought to give the President the right to requisition property or use thereof for the defense of the United States upon payment of just compensation; and

A motion that the Committee of the Whole rise and report the bill back to the House with the recommendation that the enacting clause be stricken.

Two technical amendments;

An amendment that stipulates that the issuance of a certificate of need may not be made subject to any requirement not directly related to a determination of the need for the service, equipment, or expenditure for which the certificate is to be issued. Rejected an amendment to this amendment that sought to provide that a certificate of need may not be made subject to any condition that does not directly relate to review criteria developed and published by the State Agency after reasonable opportunity for a hearing and debate (rejected by a recorded vote of 203 ayes to 211 noes, Roll No. 359);

An amendment that permits those units of local government already handling their services through a public agency to continue their supervision;

An amendment that prohibits health systems agencies from using Federal funds to hire individuals to lobby on pending legislation at the local, State, and Federal levels.

Rejected:

An amendment that sought to provide that all health systems agencies be public agencies; to require that 25 percent of the members of the governing bodies of the health systems agencies be appointed by the Governor of the State and 30 percent by the chief governing authority within the service area; and to provide that the governing bodies be composed of at least 10 but not more than 30 members (rejected by a recorded vote of 135 ayes to 274 noes, Roll No. 360, after having been previously agreed to by a division vote of 16 ayes to 10 noes); and

An amendment that sought to waive Davis-Bacon wage requirements in relation to construction of medical facilities under the provisions of the bill (rejected by a division vote of 12 ayes to 26 noes).

Subsequently, this passage was vacated and S. 544, a similar Senate-passed bill, was passed in lieu after being amended to contain the language of the House bill as passed. Agreed to amend the title of the Senate bill.
